APPLICATION TO AMEND A PERMIT OR REGISTRATION

1. Name and mailing address of the applicant/registrant and, if different, the owner of land on which the well is or will be located.

2. If the applicant/registrant is other than the owner of the property, documentation establishing the applicable authority to construct and/or operate on the property described in the application for the proposed use.

3. The location of the Existing Well or the location where a new well, test well or test hole is to be drilled in sufficient detail to allow the District to locate the placement of the well with reference to property ownership records and location from access points.

4. A statement of the nature and purpose of the existing/proposed action, the amount of water to be used for each purpose, and the estimated rate at which water will be produced from the well.

5. An acknowledgment by the applicant/registrant that required information in any Operating Permit will be furnished to the District by the applicant/registrant upon completion of the well(s) and prior to production of water there from under any Operating Permit.

6. A water conservation and drought contingency plan, or a declaration that the applicant/registrant will comply with the District's Groundwater Management Plan.
7. A water well closure plan, or a declaration that the applicant/registrant will comply with well plugging guidelines and report closure to the TCEQ and the District.
8. For Well Fields the following additional information: (i) the total number of wells within the Well Field; (ii) the location of each well within the Well Field; (iii) the cumulative maximum production limit from all wells in the Well Field; (iv) the anticipated maximum instantaneous production rates for each well in the Well Field; (v) the proposed construction completion date for all wells in the Well Field, including the construction completion date for each Well in the Well Field if available.
9. The drilling log, lithologic log or geophysical log(s) (in TIFF format if available) prepared during the drilling of the subject well.
10. Results and information from any and all Test Wells related to the Application performed in accord with the provisions of Rule 6 of these Rules.
11. Identification of the aquifer(s) from which water will be produced and the screening or perforation interval(s).
12. A mitigation plan for a **Tier I** well when required by the Executive Manager.

13. A mitigation plan for a **Tier II** well.

14. Any other additional information deemed necessary by the District and authorized by Chapter 36 of the Texas Water Code.

Applicant's Sworn Statement

I hereby swear and affirm that the information given herein is true and accurate to the best of my knowledge and belief, and that I am aware of, knowledgeable of, and will comply with all District Rules.
