

# BID NOTICE

The Plum Creek Conservation District (PCCD), Lockhart, Texas is requesting sealed bids from qualified, responsible bidders for REHABILITATION to Floodwater Retarding Structure Site 21 at Plum Creek Watershed in Caldwell County, Texas.

One award for all items will be made. Performance time is 573 calendar days. Estimated price range is between \$5,000,000 and \$10,000,000. Major components of the work are:

- Remove existing principal spillway inlet, and abandon in place the 30-inch diameter conduit by grouting.
- Replace the existing principal spillway with a new principal spillway inlet riser, 42-inch-diameter conduit, impact basin, and outlet channel.
- Abandon the existing earthen auxiliary spillway using a closure section of new embankment fill with a maximum height of approx. 10 to 11 feet.
- Construct a new roller compacted concrete (RCC) overtopping auxiliary spillway structure and outlet works.
- Raise crest of existing embankment approx. 4.7 feet and flatten downstream embankment slope.
- Install a foundation/embankment drain system.
- Install rock riprap wave protection on the upstream embankment slope.
- Other items of work include sprigging, irrigation, construction surveys, removal of water, topsoiling, fencing, geotechnical instrumentation, pollution control, mobilization and demobilization, and contractor quality control.

PCCD reserves the right to accept or reject any and all bids. A 5 percent bid guarantee is required. The successful bidder will be required to furnish performance and payment bonds.
